Rapid analysis results

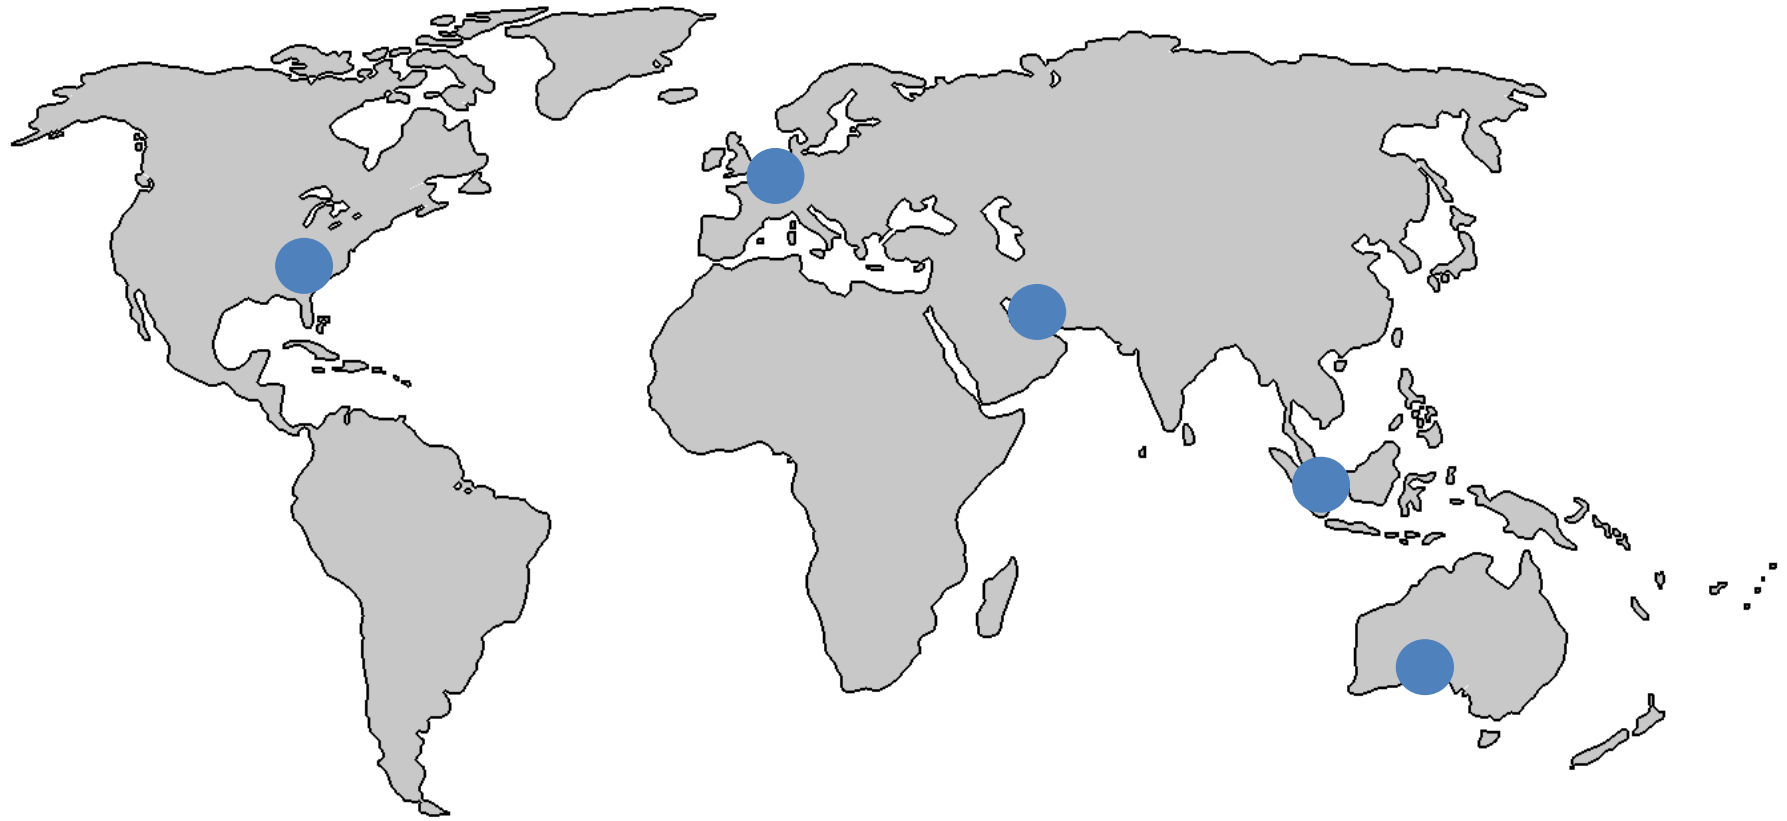

Reproducible and reliable

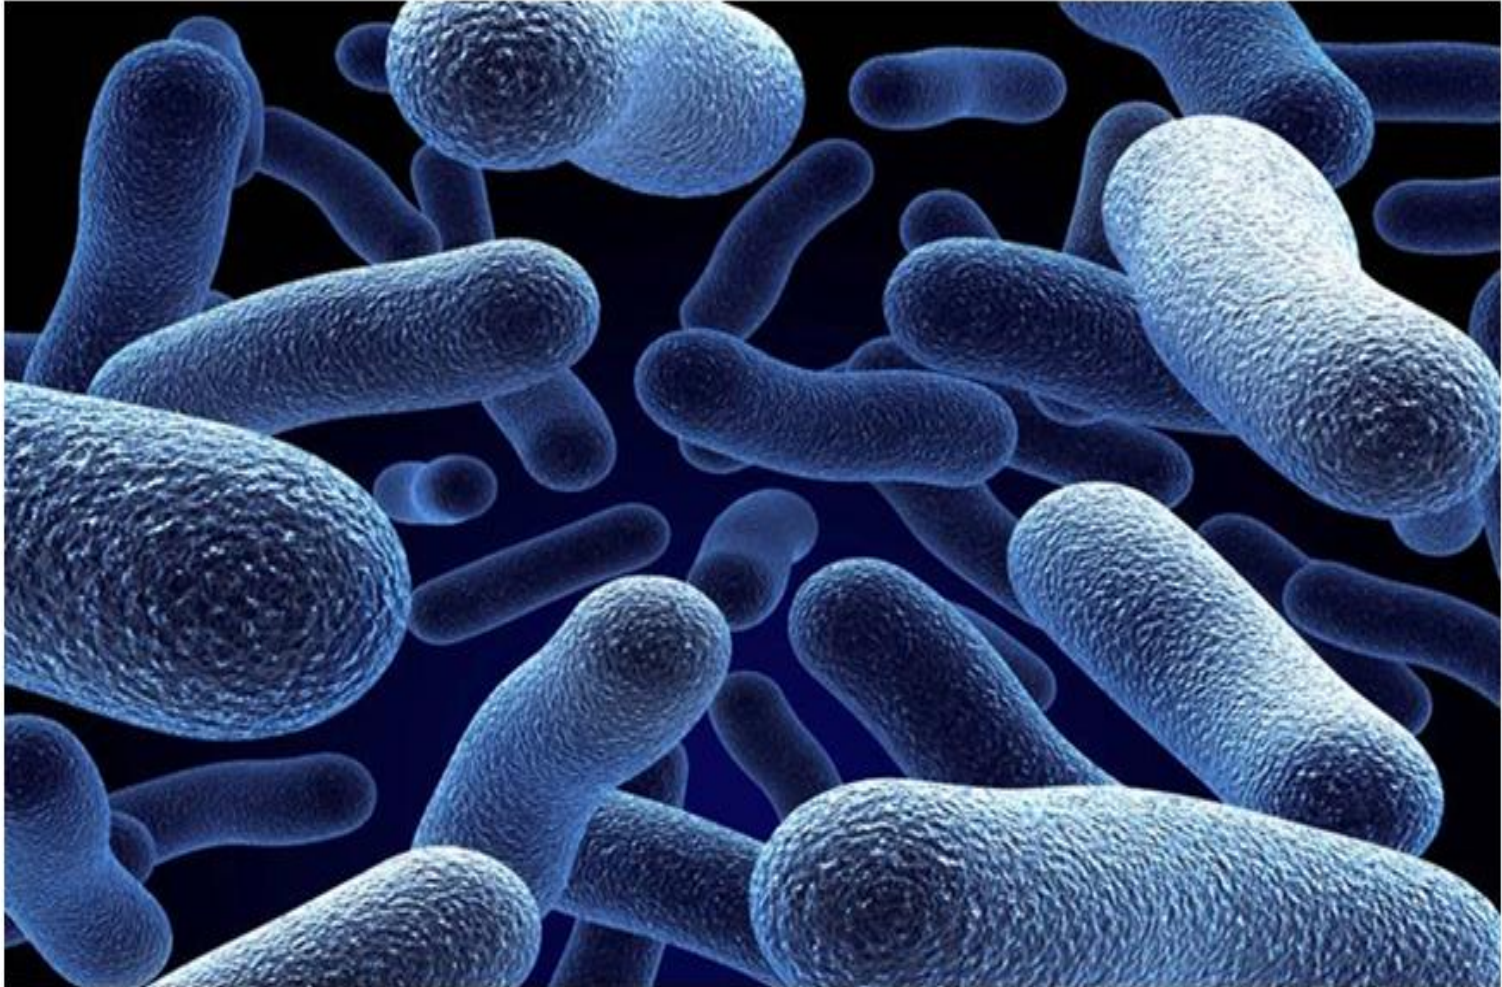

Relevant

All Mycometer products are
patented and trademarked by
Mycometer

All Mycometer products are verified by
the US-EPA in 2012

Time consuming methods

You do not get timely results

Bactiquant[®]-water

Total Bacteria

From days to minutes

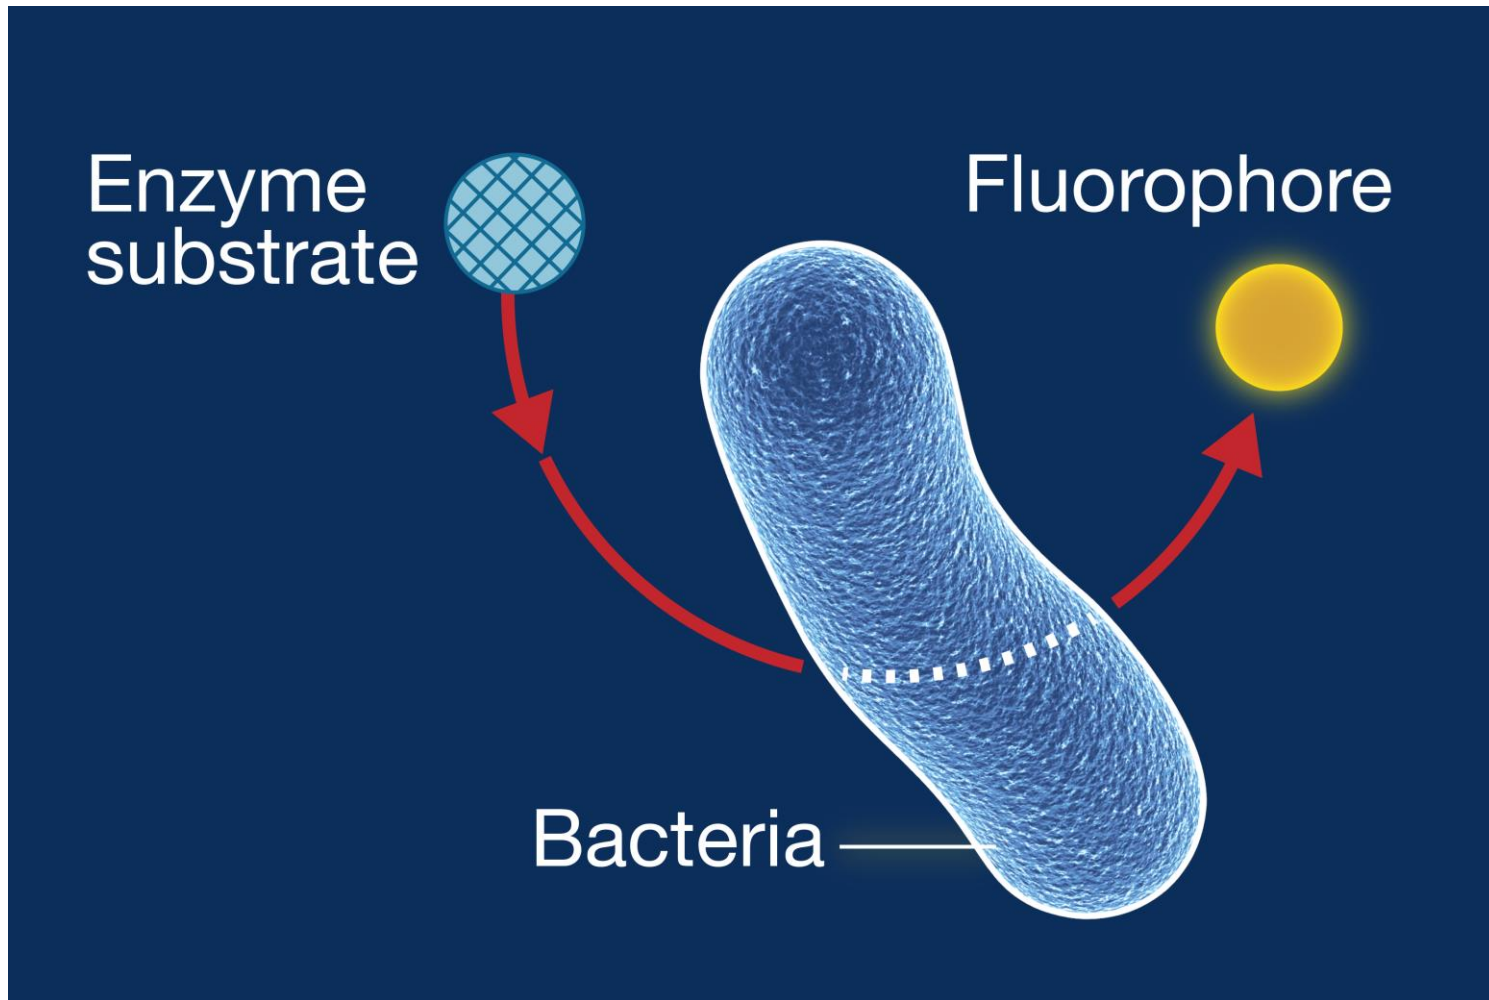

Early warning

Rapid adjustment

Maintain control

The more fluorescence the more
bacteria is present in the sample

Drinking water

Waste Water

Industrial proces water (CIP, Recycled and Closed Loop Systems)

System Hygiene Verification (ISO 22000, HACCP, Cooling towers, Water tanks)

Risk Assesment (Legionella)

Hydrophobic liquids (Diesel oil)

Schlumberger

INTEL

FACEBOOK

Portable equipment

Tailored solutions for lab operations

Multiple sampling options

Data handling software

Training and certification program

Quality assurance program
